[Bibliography from 2009 Periodic Review Staff Report.docx](#)

Erin,

Thank you for your assistance with the comprehensive review of the Bay-Delta Plan. Per our discussion, attached are the reference lists for the Delta Flow Criteria Report and the Periodic Review Staff Report. Also attached is the comment letter from the San Luis and Delta Mendota Water Authority and the State Water Contractors containing the list of scientific articles published since 2009 that they would like the State Board to consider. As we discussed, the target date of June 29 for identifying appropriate technical papers is flexible. If you need more time, let me know.

Thanks,

Karen
